PROFILE

Project Manager and PMO leader with 8+ years of international experience delivering enterprise technology projects and programmes across Europe and LATAM. Builds and scales PMO functions from the ground up — governance, delivery frameworks, executive reporting and operating models — and runs multi-country cloud, AI and digital transformation projects end to end. Acts as the executive counterpart to senior stakeholders, leads distributed cross-functional teams, and translates business priorities into delivery roadmaps and measurable outcomes. Industrial Engineer, International MBA and PMP® certified. Native Spanish, C1 English, B1 Italian.

PROFESSIONAL EXPERIENCE

Director, Program Management Office | Axmos Technologies — Valencia, Spain (Remote) *May 2024 – Jul 2026*

- Led delivery for a fast-growing AI/Cloud technology company, managing a cross-functional team of 10 — project managers, service managers and cloud engineers — supporting a portfolio of enterprise clients.
- Acted as executive counterpart for strategic enterprise accounts, translating business priorities into delivery roadmaps and owning the relationship at senior level.
- Introduced standardised delivery frameworks, executive reporting and portfolio governance across the organisation, improving delivery efficiency by 25%.
- Coordinated a \$500K OCI-to-GCP cloud migration for a major Latin American retail group, aligning stakeholders, vendors and technical teams across environments in Argentina, Brazil, Peru and Chile.
- Led the implementation and migration to Odoo ERP, including hands-on configuration in the Web/development module, navigating team realignment challenges mid-project to deliver the migration successfully.
- Designed and rolled out a customer segmentation and adoption model across 20+ enterprise and mid-market accounts, contributing to a 15% increase in customer retention.
- Reduced SLA resolution times by 30% by redesigning operational processes and accountability mechanisms across the delivery organisation.
- Built internal capability in Citrix, removing dependency on an external vendor that represented 25% of the service contract.

Global Program Manager | Axmos Technologies — Spain *Jul 2023 – May 2024*

- Established the company's first PMO from scratch, increasing programme execution efficiency by 30%.
- Directed a portfolio of 10+ cloud and AI programmes for clients in Chile, Peru, Mexico, Ecuador and Trinidad & Tobago, partnering with C-level stakeholders to align delivery with business objectives.
- Coordinated cross-functional and cross-market delivery teams across multiple time zones and cultures.

Project Manager - IoT | Telefónica Tech — Madrid, Spain *Oct 2022 – Jul 2023*

- Delivered 10+ IoT projects for enterprise clients in a large, complex international telecommunications environment, accelerating time-to-market by 5%.
- Managed the full project lifecycle for a portfolio of enterprise customers, using Salesforce for project tracking, account management and delivery reporting.
- Owned risk, budget and stakeholder communication end to end, coordinating internal teams, external vendors and enterprise customers.

Career Break — Malta & Italy | English studies and International MBA · Jun 2021 – Sep 2022

Financial Control Analyst | RIOblanco (Rio Blanco Investments) — Chile (Remote) *Jun 2019 – May 2021*

- Managed ~\$1M annual operating budgets across holding companies, partnering with management on targets and reporting.
- Improved forecast accuracy, enabling better resource allocation.

Founder & Business Manager, E-commerce Import Venture — Chile / US (Remote) · 2020 – 2022: built and scaled an import e-commerce business to \$25K+ in revenue through digital marketing and customer experience optimisation.

Earlier: Project Engineer, TYPISA — Chile (2018–2019)
